

Quality HealthCare Enrolled in The Elderly Health Care Voucher Pilot Scheme

To support the government's effort in offering better primary healthcare for the elderly, we are very pleased to announce that Quality HealthCare has participated in the Elderly Health Care Voucher Pilot Scheme (HCVS).

Starting from January 2009, elders aged 70 or above will be given five health care vouchers (HK\$50 each) annually by the government as subsidies for their private primary healthcare. Eligible elders may bring their Hong Kong Identity Card or Certificate of Exemption to the enrolled Quality HealthCare Medical Centres, Physiotherapy Centres and Chinese Medicine Medical Centres* to enjoy the subsidies.

For further details, please visit the government website (<http://www.hcv.gov.hk/>) or call our Customer Services Hotline **8301 8301**.

*Eligible elders may visit the following centres:
