

JOIN THE PINK REVOLUTION

*Be Breast Aware
Early Detection Saves Lives*

Breast Cancer is the number one female cancer in Hong Kong. Breast cancer is rising at an alarming rate, with cases almost doubling in the last 20 years.

As the largest private healthcare provider in Hong Kong, Quality HealthCare would like to serve the community by supporting the **Dress Pink Day** on Friday 24th October organized by the Hong Kong Cancer Fund.

We will be circulating the Corporate Donation Form to all our offices, medical, dental and physiotherapy centres, and our elderly homes. Each person can donate HK\$50 or more. Each donor will receive a pink pack full of souvenirs, practical information and a pink item to wear on Dress Pink Day.

The Company encourages all staff to participate in this meaningful event and will match every staff's donation, so don't hesitate and act now.
